## **Malagasy citizens (people of Madagascar) exempt from visa to enter South Africa and 66 other countries.**

From this month of September 2019, Malagasy citizens will be exempt from the visa requirement to enter SADC (Southern African Development Community) member countries, including South Africa.

From now on, holders of a Malagasy passport will be exempted from the visa requirement for stays without gainful activity in more than 15 SADC (Southern African Development Community) and IOC (Indian Ocean Commission) member countries (except Reunion because of its ultraperipheral European situation).

Those who want to work, however, remain subject to very strict conditions. Only highly qualified people can hope to enter the labor market in these countries.

Malagasy passport allows to stay in more than 60 countries without prior visa (either no visa or a visa issued upon arrival).

## **Countries where you can enter freely with a Malagasy passport without a visa**

### **1) Countries where Malagasy citizens do not need a visa to travel**
